**Pest Control**

A few ideas to assist with summer pest control:

Eliminate pests' food and shelter – remove standing water in yard, discard trash in sealed bags, empty garbage frequently, run garbage disposal often, store bulk food in sealed containers. Vacuum thoroughly and often.

Make couch cushions, pantry and cabinet shelves and toasters “crumb-free zones”. Take up, wash and dry pet food and water bowls at night. Bathe and comb pets regularly

Discard overripe fruit, onions and potatoes. Fill a small bowl with fruity vinegar (cider or wine vinegar), cover tightly with plastic wrap, poke holes with a pencil through the wrap to trap and kill fruit flies. Works unbelievably well.

Spray ants with soapy water to kill. Disrupt their scent trail –in a small line at entry point, put lemon juice, cinnamon, cayenne pepper or coffee grounds.
